Best Accommodation

We offer an excellent range of accommodation options. Our jackleg units can be linked, or double-stacked, to create two-storey accommodation and our insurance-rated secure units give added protection against vandalism and theft.

No other independent supplier can match our expertise, or the breadth of our hire fleet.

Our range includes:

- Mains and non-mains toilets, washrooms and showers (gas and electric). Expert crews can carry out all cleaning and maintenance
- Disabled toilets, washrooms and shower blocks
- Ticket booths
- Offices, meeting rooms and changing rooms
- Choice of finishes and fixtures
- Secure stores

Proven in the Field

Over the years, we have supported events at hundreds of different venues, including:

The Commonwealth Games, The Belfry, Mallory Park, National Trust Events, The Royal Windsor Horse Show, The Ryder Cup and Silverstone Grand Prix to name but a few well known venues and events.

We recognise that service excellence is key to our clients' expectations, not only before an event, but while the event is running and after it has closed.

A confirmed delivery date and experienced installation staff, hire period cleaning, rapid on-site repair, fast removal and emergency back up are all part of our hire package. Site visits are also carried out where we feel that this is advisable, or at a client's specific request.

Hundreds of our clients have tested our service in the field and proved that this level of service is all that we claim it to be. That is why they come back to us time and time again.

"I'd like to reiterate how pleased I was with the level of care and attention we received from the guys working on the project... nothing was too much trouble"

Toilets & Showers

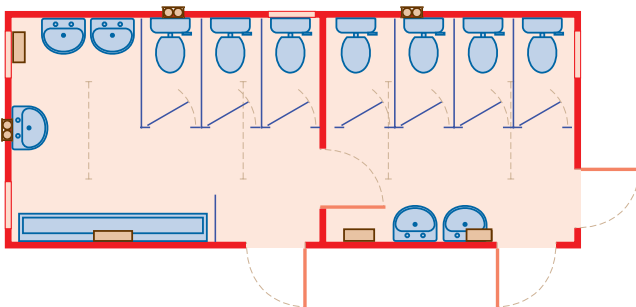

We recognize that the standard of toilet and shower facilities offered at an event and the service that goes with these facilities can make or mar an event.

With this in mind our clients can choose from a wide range of units. You can select, or we can advise which type and how many units would be best for your event.

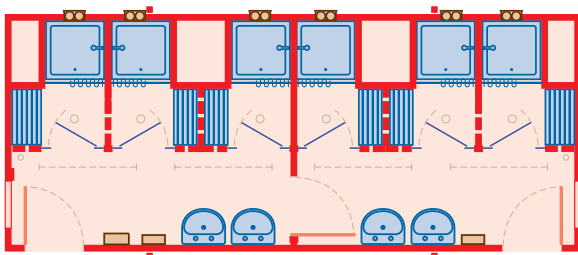

Our stock ranges from single chemical units to fully plumbed luxury blocks designed for mains connection. Our shower units can be electric or gas-powered and all our private facilities are available as self-contained mobile or jackleg units.

Ever conscious of the environment Wernick Event Hire's waterless urinal blocks can save around 40% water usage at an event, thus saving valuable natural resources and costs. Our experienced staff have the experience and expertise to offer accommodation solutions on all areas of your event that may save you money as well as protect the environment.

Mobile Units

Mobile accommodation units provide adaptable and convenient solutions for many types of event requirements. Available as general offices, but also as canteens, changing rooms, ticket offices and first-aid points, or as other bespoke accommodation solutions which we can customize the units for.

The mobility of these units allows rapid relocation by a 4 x 4 vehicle to locations that would be inaccessible by lorry. If ground conditions are soft, or poor weather conditions are forecast, these units offer the best solution. They can be delivered, set-up and then removed at the end of an event quickly and without fuss.
